**DETAILED ACTION**

Claims 1-11 are pending in the application

***Election/Restrictions***

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-5, drawn to structured multi-purpose packings, classified in class 422.
- II. Claims 6-11, drawn to a process using structured multi-purpose packings, classified in class 568.

Inventions of group I and group II are related as product and process of use. The inventions can be shown to be distinct if either or both of the following can be shown: (1) the process for using the product as claimed can be practiced with another materially different product or (2) the product as claimed can be used in a materially different process of using that product (MPEP § 806.05(h)). In the instant case, the process for using the product as claimed can be practiced with another materially different product such as the structured packings disclosed in EP 0631813 A.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

A telephone call was made to Ernest F. Chapman on 1/2/02 to request an oral election to the above restriction requirement, but did not result in an election being made.

Art Unit: 1621

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
